Quiz 3 - Results

Attempt 1 of 1

Written Oct 6, 2026 10:16 AM - Oct 6, 2026 10:20 AM

Attempt Score	**6 / 10 - 60 %**
Overall Grade (Highest Attempt)	**6 / 10 - 60 %**

Question 1 — 0 / 2 points

In polynomial multiplication, what does the FFT speed up?

- ○ Adding two polynomials
- ○ Finding the roots of a polynomial
- ➡ ○ Converting between coefficient form and value form
- ✖ ◉ Multiplying the values point by point

Question 3 — 0 / 2 points

You multiply two polynomials of degree 2. What is the smallest N that is a power of two you can use for the FFT?

- ➡ ○ N = 8
- ✖ ◉ N = 4
- ○ N = 2
- ○ N = 16
